

# CAMPAIGN BOOTCAMP

## Our Mission

*is to support people to run effective campaigns that challenge injustice*

## Our Vision

*is a world in which people impacted by injustice have the tools and skills they need to end it*

## Our Approach

*is participatory, experiential, and follows an anti-oppression framework*

## We Believe...

- In **community**.
- In **creating a supportive learning space** that is as safe as possible.
- In **centring lived experience, knowledge, + wisdom**.
- In being **led by the needs of the group**.
- **We are not “the experts”**, that you have a LOT of knowledge.
- All things can be used for learning, and there are **many types of knowledge**.
- **People who experience an oppression should be the people leading the movement against it**.
- Transparency, accessibility, and accountability are key
